

AUSTERITY IS A COMPLETE AND UTTER LIE! THE BANKERS AND BIG BUSINESS ARE CREATING ECONOMIC MISERY BECAUSE OF OUR IGNORANCE!

As a delegate to this year's TUC Congress and as an activist in the Trade Union Movement, how much do you actually know about the creation and supply of money?

Do you know that only 3% of all the money in the UK is created as physical money by the Bank of England on behalf of HM Treasury?

Do you know that the private banks have created the rest, 97%, from absolutely nothing – they have simply created this money completely out of thin air as debt. It is not backed by gold or anything, just thin air! It's called Fractional Reserve Banking!

Have you ever heard of the very little known and secretive Bank for International Settlements (BIS) based in Basle, Switzerland?

Do you know that the BIS controls sixty central banks including the Bank of England, the US Federal Reserve and the European Central Bank and as a result oversees 95% of the world's money?

Do you know that the BIS holds secretive, bi-monthly and very high-level meetings where the governors of the top central banks, including Mark Carney, receive their instructions from the major banking dynasties including the House of Rothschild, the Warburgs and the Rockefellers?

With this in mind, does George Osborne and the British Government really control the Bank of England? Do you know that Dave Prentis of UNISON is a Director of the Bank of England? What does he know about the BIS?

Do you know that in 1914 the British Government printed and controlled, through HM Treasury, its own debt-free and interest-free money based on the wealth, integrity and potential of the British nation and that there was no problematic inflation? Called the Bradbury Pound, do you know that Jeremy Corbyn signed Early Day Motion 748 to bring back the Bradbury?

The truth is that the world's money supply is controlled by crooks! The truth is that we are all suffering because of our ignorance. The City of London is scared stiff that we will one day wake up to this simple truth – a sovereign nation can and should issue its own debt-free and interest-free money. And do not be deceived by People's Quantitative Easing – this complex idea is ultimately controlled by the BIS and the City of London. Steer clear!
