

Where Does Money Come From?

BRADBURY POUND

The Truth:

“In the modern economy, most money takes the form of bank deposits. But how those bank deposits are created is often misunderstood: the principal way is through commercial banks making loans.

Whenever a bank makes a loan, it simultaneously creates a matching deposit in the borrower’s bank account, thereby creating new money.

The reality of how money is created today differs from the description found in some economics text-books”

We Are All Being Scammed!

Nearly all of us are victims of a massive and virtually unknown criminal scam being undertaken by the Establishment – that is the private bankers, the corporate financiers and the secretive Crown Corporation that all make up The City of London!

The Tories, as the natural mouthpiece and ally for the City of London, the financial markets and the global banking cartel, are now ready to ‘tackle the deficit’ by calling for ‘austerity measures’, ‘further budget cuts’ and ‘welfare cuts’ amounting to some twelve billion pounds.

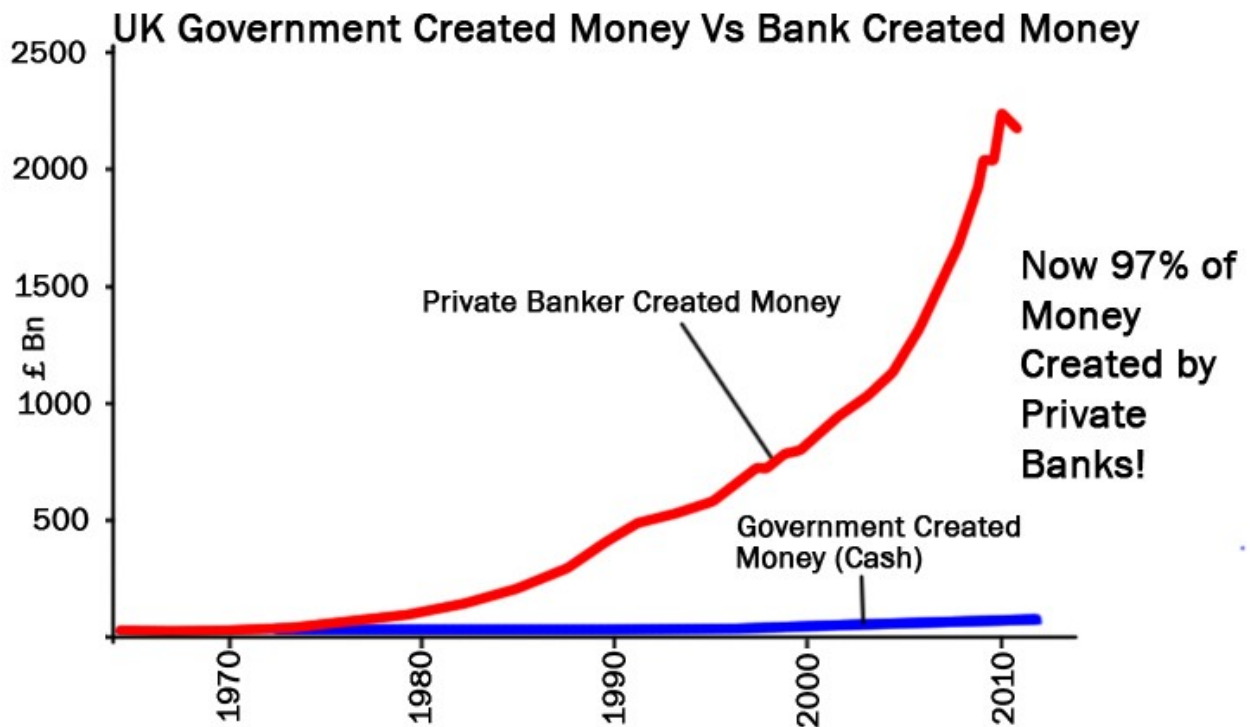

It goes without saying that these cuts this will obviously hit the weakest and most vulnerable in our society. Why does the Government borrow from Private banks when it has the power to create all of it’s own money and not just the 3% cash and coins that it now does?

The majority of New Money, 97%, is created by Private Banks – NOT by the government.

A sovereign nation requires that a government issues all new money for the benefit of all and not just for the elite.

Justin Walker lifts the lid on the ongoing world-wide financial scam perpetrated by the banksters and the establishment.

For those that do not understand how money is created, this is a must read book. There is no need for austerity but there is a need for sovereign governments to issue and control the money supply for the benefit of the nation as a whole and not just for the elite.
